What we offer

AkzoNobel offers trusted partnerships built on a strong reputation of supplying quality, unique coatings to the steel door market.

Our steel door coatings give flexibility and diversity to a range of applications including rolling steel doors, commercial and residential entry doors, residential garage doors and commercial track doors.

POLYDURE®

Leading polyester topcoat systems for steel doors

POLYDURE® is the leading proprietary resin technology specifically tailored to the needs of the steel door market.

POLYDURE® for steel doors

Our portfolio of POLYDURE® coatings provides a high quality premium appearance to protect your brand and projects for increased end user satisfaction. POLYDURE® for steel doors excels when combined with a leading primer and backer as part of a system. Our full portfolio is also backed by our proven warranty and customer service for peace of mind.

-  Proven trouble-free application combined with a consistent, smooth film
-  Provides a broad range of color, gloss, print and texture options
-  Versatility in field quality and performance is only rivaled by the service we provide

Each steel door project is unique.
That's why we offer a full portfolio of options tailored specifically for the rigors of steel door applications.

POLYDURE® N D2000

Standard hybrid coating

Optimized coating provides scratch and abrasion resistance with built-in flexibility. Primarily for the track door segment.

Combines leading performance with premium appearance

Exceptional performance during fabrication and transport

POLYDURE® N D2020

Maximum flexible coating

Flexible coating improves production throughput and lowers reject rates. Primarily for the track door segment.

Increases forming, bending and embossing flexibility

Improves confidence to increase production efficiency

POLYDURE® N D2030

Tough and rigid coating

Maximum scratch, abrasion and wear resistance that stands strong. Primarily for the rolling steel door segment.

Tough coating that stays looking newer for longer

Durable and quiet even during constant door opening and closing cycles

A quality coating is only part of the story

Your team of AkzoNobel coating experts combine an industry-leading door coatings portfolio with the highest level of customer service relationships and tailored programs to bring your projects to life.

The benefits

For specifiers

- Leading coatings with aesthetic and performance benefits
- Innovative coating options to bring projects to life
- Experts who advise solutions based on your project needs
- Long track record of product performance proven in the field

For service centers

- Innovative and leading partnering services

Sustainable technology

Relationships and industry expertise

You can depend on us. Our services are designed to offer market leading products and an expert service allowing you to optimize your business.

- Expert advice on solutions to fit your needs
- Industry knowledge and expertise to optimize your business
- Expert color trends program to achieve project goals
- Color programs to ensure color consistency

Color expertise

Retail color matching program

AkzoNobel's leading color program offers a matching process ensuring color consistency of adjacent trims and ancillary coatings.

- Match paint to trim and other ancillary coatings for project consistency
- Research retailers and obtain matching product codes and corresponding data
- Quickly respond to color matches and new product requests
- Monitor projects from start to finish

Color stability program

Our industry-leading color stability program reduces time and costs while increasing project accuracy and success.

- Track all line data for color and gloss performance
- Tight quality control tolerances to ensure low variability and match master standard specs
- Increase color and gloss consistency of final project
